FIG. 46

A diagram of a circular device, possibly a lens or a sensor array. The device is represented by a large oval with a stippled background. Inside the oval, there are two rectangular components, labeled 53, positioned horizontally. A central point, labeled 17, is located between the two rectangles. A dashed circle, labeled 54, is centered on point 17. Arrows point from the outer edge of the oval towards the center, and from the rectangles towards the central point. The label 10 points to the outer boundary of the oval, and the label 12 points to the stippled background area.
